

Welcome Hall – Threatened Closure

The village hall(Welcome Hall) is threatened with closure due to the fact that the management team for the hall, who have worked long and tirelessly in making the hall a viable asset to village life, have decided to retire as of 31st December.

However, what better time to pass the baton on to a new team as three vacancies are now available.

we are looking for people to take up that baton and join the Welcome Hall management committee.

One of the posts is that of booking clerk, a vital task, that if not filled means no one will be able to use the hall.

The other two jobs are largely hidden from public view but are nonetheless vital for the smooth running of the hall.

The tasks include ensuring that everything is working as it should. This doesn't mean you have to have, in depth, practical expertise because by and large in a public building major work needs to be undertaken by certified plumbers, electricians, builders etc.

Sadly, if these three vacancies are not filled then there will be no option but to permanently close the hall!!

So, if you are interested please get in touch with our village clerk on: 01394 285193

Please, please, help us ensure that the village continues to have a viable working future.
